#### Patience and Cash.

Patience and Cash.

The hostess of the "Wayside Inn" request most earnestly that the patrons of their justiv celebrated hostelry will lay in an extra supply of patience, as well as cash, when they honor them with their presence and orders. They proutise that their demands on both will be as modetate as circumstances will permit. It will probably be a question of a few weeks at most before the entire corps of waiters from the Commonwealth and Westmoreland Clubs will come in a body to tender their services "free gratis for nothing," excepting the honor of being connected with the exclusive establishment. In the meantime the present force of young under-graduates in the art of balrancing a tray full of heavy dishes through a surging crowd are making strenuous efforts to perfect themselves in their unaccustomed duties and will serve everyone as expeditiously and satisfactorily as possible.

These young girls, imbued with the spirit of their noble predecessors, have cheerfully undertaken to do what many might well hesitate to attemnt.

which comes fro in the consciousness of having performed to the very best of their ability what has been given to them to do. If the guests will bear in mind that many of these young ladies have been working faithfully from eleven in the morning until midnight, with ten days still to come, they will appreciate the spirit in which this plea is made in behalf of "Our Girls."
